

Los Angeles Regional Water Quality Control Board

May 16, 2024

Christina Kasprovich
Supervisory Physical Scientist and Environmental Compliance Branch Manager
Department of the Navy
Environmental Division,
Naval Base Coronado
Building 3, P.O. Box 357088
San Diego, CA 92135-7088

ADOPTED WASTE DISCHARGE REQUIREMENTS (WDRs) AND NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMIT FOR THE UNITED STATES NAVY, SAN CLEMENTE ISLAND WASTEWATER TREATMENT PLANT (SCI WWTP) (NPDES NO. CA0110175, CI NO. 6432)

Dear Christina Kasprovich:

The Los Angeles Regional Water Quality Control Board (Los Angeles Water Board) staff transmitted a letter containing the revised tentative WDRs, NPDES permit, and responses to comments received for the Navy's SCI WWTP on April 11, 2024.

In accordance with administrative procedures, the Los Angeles Water Board at a public hearing held on April 25, 2024, reviewed the revised tentative requirements including a change sheet revising the shoreline/offshore microbiological monitoring requirements, considered all factors in the case, and adopted WDRs and NPDES Order No. R4-2024-0182.

The complete adopted Order is attached and is also available on the Los Angeles Water Board's [website](https://www.waterboards.ca.gov/losangeles/board_decisions/adopted_orders/index.html) (https://www.waterboards.ca.gov/losangeles/board_decisions/adopted_orders/index.html) for review.

If you have any questions, please contact me at steven.webb@waterboards.ca.gov or (213) 576-6793.

Sincerely,

Steven Webb, P.E.
Municipal Permitting Supervisor
Los Angeles Regional Water Quality Control Board
