TERMINATION OF COVERAGE UNDER INDIVIDUAL WASTE DISCHARGE REQUIREMENTS FOR NAVAL AUXILIARY LANDING FIELD ON SAN CLEMENTE ISLAND, CALIFORNIA (ORDER NO. R4-2025-0152, FILE NO. 97-094, CI-7829, GEOTRACKER GLOBAL ID WDR100000591)

Dear Christina Kasprovich:

The Los Angeles Regional Water Quality Control Board (Los Angeles Water Board) is the public agency responsible for protecting groundwater and surface water quality for all beneficial uses of water within major portions of Los Angeles and Ventura Counties, including the referenced property.

Our letter dated April 2, 2025, transmitted the tentative Termination of Waste Discharge Requirements (WDRs) for domestic wastewater discharge to land at the Naval Auxiliary Landing Field (Helo Squadron) on San Clemente Island, California.

Pursuant to Division 7 of the California Water Code, the Los Angeles Water Board held a public meeting on April 24, 2025, during which the tentative Termination of WDRs was reviewed. After considering all relevant factors, the Board adopted Order No. R4-2025-0152, *Termination of Individual Waste Discharge Requirements Order No. 97-128 and Monitoring and Reporting Program No. CI-7829 for Naval Auxiliary Landing Field* (enclosed).

If you have any questions, please contact Engineering Geologist Ryan Nickerson at ryan.nickerson@waterboards.ca.gov or me at jim.kang@waterboards.ca.gov.

Christina Kasproovich
