Dear Mr. De Frates:

TENTATIVE REVISED WASTE DISCHARGE REQUIREMENTS – AZUSA LAND RECLAMATION LANDFILL, WASTE MANAGEMENT, INC., AZUSA, CA (FILE NO. 59-102)

Section 13263 of the California Water Code provides for the periodic review and revision by the Regional Board of waste discharge requirements (WDRs) for landfill facilities. Because the WDRs for the Azusa Land Reclamation (ALR) Landfill (Regional Board Order No. 88-133, adopted November 28, 1988) no longer accurately reflect current conditions at the ALR Landfill, we have revised them.

In accordance with administrative procedures, this Regional Board, at a public meeting to be held on July 16, 2009 beginning at 9:00 am., at the Metropolitan Water District of Southern California, 700 North Alameda Street, Los Angeles, CA 90013, will consider adoption of the enclosed tentative requirements and written comments regarding any or all requirements thereof. It is expected that the Regional Board will take action at the meeting, however as testimony indicates, the Regional Board at its discretion may order further investigation.

In order to be fully evaluated by Regional Board staff and included in the Regional Board's agenda packet, written comments must be received at the Regional Board's office by 5:00 pm on June 25, 2009.

A copy of the tentative requirements for the use of Waste Management, Inc. is attached. We are sending a hard copy of the tentative requirements to the addressee only. For recipients on the mailing list, an electronic copy is available at http://www.waterboards.ca.gov/losangeles/board_decisions/tentative_orders/. A hard copy of the tentative requirements can be furnished upon request.
