Dear Mr. Hovey:

On January 11, 2001, the Regional Water Quality Control Board (Regional Board) adopted Waste Discharge Requirements (WDR) Order No. 01-008. On November 4, 2010, you filed a Report of Waste Discharge (ROWD) for WDR renewal for the disposal of treated wastewater from the Malibu Bay Club Wastewater Treatment Plant. We have completed our review of your application for WDRs for the Ventura Regional Sanitation District. Pursuant to the California Water Code, a tentative waste discharge requirements and revised monitoring and reporting program have been prepared.

Enclosed are copies of the Tentative WDR consisting of:

- a. Regional Board Order No. R4-2012-XXXX,
- b. Tentative Standard Provisions Applicable to WDR, and
- c. Revised Monitoring and Reporting Program No. 5774.

In accordance with administrative procedures, this Regional Board will consider the enclosed tentative WDRs and comments therein at a public hearing to be held at 9:00 AM on April 5, 2012 at the Metropolitan Water District of Southern California, 700 North Alameda Street, Los Angeles, California. The Regional Board will hear any testimony pertinent to this discharge and the tentative requirements. It is expected that the Board will take action at the hearing; however, as testimony indicates, the Board at its discretion may order further investigation.

In order to be fully evaluated by the Regional Board staff and included in the Regional Board's agenda packet, written comments must be received at the Regional Board's office by 5:00 p.m. on March 9, 2012. Failure to comply with these requirements is grounds for the Regional Board to refuse to admit the proposed written comment or exhibit into evidence. Timely submittal of written comments is encouraged to ensure that all comments are accurately and fully included in the administrative record, that Regional Board staff is able to provide timely review, and that Regional Board Members have sufficient time to give full consideration to the comments and issues raised.
