

Water Boards

STATE WATER RESOURCES CONTROL BOARD
REGIONAL WATER QUALITY CONTROL BOARDS

EXECUTIVE OFFICER'S REPORT

Executive Officer,
Susana Arredondo

November 21, 2024

California Regional Water Quality Control Board Los Angeles Region

320 W. 4th Street, Suite 200, Los Angeles, CA 90013

Our mission is

to preserve, enhance, and restore the quality of California's water resources and drinking water for the protection of the environment, public health, and all beneficial uses for the benefit of present and future generations.

Note: The Executive Officer's Report is not intended to be an exhaustive list of Los Angeles Water Board staff activities from the previous month, but rather provides highlights of these activities.

GROUNDWATER DIVISION

Hugh Marley, Assistant Executive Officer

Compliance and Enforcement Section – Russ Colby, Section Manager

Remediation Section I – Dr. Arthur Heath, Section Manager

Remediation Section II – Jillian Ly, Section Manager

Underground Storage Tanks Section – Dr. Yue Rong, Section Manager

SURFACE WATER DIVISION

Jenny Newman, Assistant Executive Officer

Groundwater Permitting & Land Disposal Section

Regional Programs Section – Dr. LB Nye, Section Manager

Watershed Regulatory Section – Dr. Jeong-Hee Lim, Section Manager

ADMINISTRATIVE SERVICES SECTION

Rosie Villar, Administrative Officer

PUBLIC PARTICIPATION

Susana Lagudis, Environmental Justice and Tribal Coordinator

Compliance and Enforcement Section

The Enforcement Report for November 2024 includes data for September 2024 in the following tables:

Table No.	Title	Description
Tables 1 - 3	Enforcement Summary by Action	Enforcement actions taken by all Regional Water Board Programs
Table 4	EPLs Issued	Twenty-nine (29) EPLs were issued for a total of \$773,000
Table 5	EPLs Settled	Nine (9) EPLs were settled for a total of \$144,000
Table 6	Violations subject to Mandatory Minimum Penalties (MMPs)	Seventy-four (74) cases with 1,091 violations subject to MMPs remain unresolved
Table 7	EPL Progress	\$345,000 in penalties collected in FY 24/25

- Tables 1 - 3 summarize enforcement actions taken by all programs.
- Tables 4 - 7 list enforcement actions taken by the Compliance and Enforcement Section.

Summary of Enforcement-Related Activities

Table 1 – Informal Enforcement Actions

Action	September 2024	FY 2024/2025
Notices of Violation	1	84
Notices of Non-Compliance	0	3
Total	1	87

Table 2 – Formal Enforcement Actions

Action	September 2024	FY 2024/2025
Administrative Civil Liability Complaints	0	0
Notices to Comply	0	0
Water Code §13267 Orders	13	38
Cleanup and Abatement Orders/Amendments	11	37
Underground Storage Tank H&S/13260 Directives	15	41
Total	39	116

Table 3 – Compliance Inspections

Action	September 2024	FY 2024/2025
NPDES (Major Permits)	0	2
NPDES (Minor Individual Permits)	0	0
NPDES (Minor General Permits)	5	11
Stormwater (Construction)	66	122
Stormwater (Industrial)	94	224
Stormwater (Municipal)	1	1
Total	166	360

Settlement Agreements

Settlement Agreement and Stipulation for Entry of Administrative Civil Liability Order No. R4-2024-0148 – City of Los Angeles, LA Sanitation & Environment

On October 18, 2024, the Los Angeles Water Board Executive Officer, through her delegated authority and after consultation with the Board Chair, approved a \$1,662,743 settlement with the City of Los Angeles, LA Sanitation & Environment (LASAN) to resolve a sewage spill in July 2016 that resulted in the discharge of approximately 1,694,754 gallons of untreated wastewater into the Los Angeles River and prompted local officials to close multiple area beaches. The spill resulted from the collapse of a section of LASAN's sewer near the intersection of 6th Street and Mission Road, causing a sink hole to form. LASAN agreed to pay \$12,743 to the State Water Resources Control Board's Cleanup and Abatement Account, with the remaining penalty amounts to fund two supplemental environmental projects (SEPs). LASAN agreed to perform the "East 6th Street Green Infrastructure Corridor Project", which is a wet weather project designed to capture, treat, and infiltrate stormwater runoff from a 49.6-acre drainage area in Boyle Heights, at a cost of \$1,575,000; LASAN also agree to pay the remaining \$75,000 to fund a SEP to be implemented by Council for Watershed Health and administered by the Rose Foundation.

Settlement Agreement and Stipulation for Entry of Administrative Civil Liability Order No. R4-2024-0007 – Long Beach Generation, LLC

On October 25, 2024, the Los Angeles Water Board Executive Officer, through her delegated authority and after consultation with the Board Chair, approved a settlement with Long Beach Generation, LLC, which agreed to pay a \$201,000 penalty for fifty-eight serious violations and nine non-serious violations of effluent limitations contained in Order Nos. R4-2016-0121 and R4-2022-0159 that occurred from August 2016 through September 2023. Long Beach Generation, LLC agrees to pay \$39,000 to the State Water Resources Control Board's Cleanup and Abatement Account, with the remaining \$162,000 to fund two SEPs to be implemented by the San Gabriel Valley Conservation Corps and Heal the Bay and administered by the Rose Foundation.

Remediation Sections I and II

Update on the Former Kast Property Tank Farm, Carousel Tract Residential Neighborhood, Carson

Activities related to site investigation and cleanup work performed in September 2024 include the following:

1. On September 10, 2024, the City of Carson held a Town Hall meeting with the Mayor and City Councilmembers for the residents of the Carousel Tract to provide an overview and update on the project. The Los Angeles Water Board and Shell gave a joint presentation.
2. On September 24, 2024, monthly scheduled light nonaqueous phase liquid (LNAPL) removal was conducted from monitoring wells MW-03, MW-12, and MW-18.
3. To date the cleanup of 285 (100 %) properties/homes have been completed. The status of the implementation of the cleanup at the Carousel Tract is as follows:
 - a. All remediation activities including excavation and installation of remediation systems, including the sub-slab depressurization (SSD) and soil vapor extraction (SVE) / bioventing, are complete.
 - b. SVE is fully operational.
 - c. All cluster work is complete.
 - d. All residents have moved back home.
 - e. The landscape and hardscape restoration of the properties is complete. All construction punch-list items are complete.
 - f. Concrete work (sidewalk, curb & gutter, ADA ramps) throughout the Carousel Tract is complete.
 - g. Asphalt paving the roads throughout the Carousel Tract is complete.

Former Athens Tank Farm / Ujima Village Apartments and Ervin Magic Johnson Regional Park (EMJRP), Los Angeles

Activities related to the environmental site investigation of the Former Athens Tank Farm conducted in September 2024 are summarized below:

1. Recent and ongoing activities for the former Athens Tank Farm site are as follows:

Ongoing weekly Phase I/II remediation systems operation & maintenance (O&M).
Phase III Remediation Systems:

- a. Groundwater monitoring wells ATF-10A (shallow) and ATF-10B (deep) continued to be inaccessible during August 2024 due to the placement of fencing by the Ujima Housing Corporation (UHC). Access to these wells is currently being negotiated with the UHC. These wells will be monitored and sampled during the next monitoring event following an access agreement. Kleinfelder will reach out to UHC staff to try resolving this matter and may request assistance from the Los Angeles Regional Board to facilitate access.
- b. Weekly Phase III remediation systems O&M activities are ongoing.

NAPL Recovery Trailer

- a. The NAPL Recovery Trailer was fully operational throughout September 2024 following repair and replacement of the NAPL sensor probe.
- b. The NAPL Recovery Trailer has been and continues to operate primarily on wells ATF-19B and ATF-21B; and
- c. The NAPL Trailer was positioned over the well ATF-21B in September 2024.
 - NAPL Tier I cumulative recovery as of May 31, 2024, using the NAPL Recovery Trailer was 5,065 gallons.
 - NAPL Tier II cumulative recovery as of May 31, 2024, using manual bailing methods was 397.3 gallons.
 - The NAPL Tier III recovery (oleophilic absorbent socks) is currently deployed in 12 wells: ATF-5B, ATF-10A, ATF-13B, ATF-22B, ATF-26B, ATF-28B, ATF-29B; KLFOB-01, KLFOB-02; and KLFSVE-01, KLFSVE-02, and KLFSVE-03.

Air/Bio-Sparge System

1. The Los Angeles Water Board approved the Phase III Air Sparge System Shutdown Request on January 12, 2024. Therefore, the air sparge/bio-sparge system was non-operational during September 2024. All Phase III Air Sparge System equipment, piping and wells will remain onsite for future use if necessary pursuant to the Los Angeles Water Board's letter.

Underground Storage Tank Section

Completion of Corrective Action at Leaking Underground Fuel Storage Tank Sites for the Reporting Period: September 2024

Cargomatic, Long Beach (Case No. 908130734)

Circle K Store No. 2211106 (Fmr. Mobil Oil SS #18-LR4), Camarillo (Case No. C-89143)

Former Mobil Station #18-GT9, Los Angeles (Case No. 900450698)

Former Shell S.S., Long Beach (Case No. 908070198)

LA Co DPW Aviation Division El Monte Airport, El Monte (Case No. R-00282)

Service Station (Former), Long Beach (Case No. 908061234)

For the case closure sites above, a total of 43,702.68 pounds of hydrocarbons were removed by soil vapor extraction system and a total of 796 tons of impacted soil were excavated and removed. In addition, 331,949 gallons of impacted groundwater were removed.

Corrective Action Plans for Leaking Underground Fuel Storage Tank Site were received for the Reporting Period: September 1 through September 30, 2024

Unocal #5021, Long Beach, (Case No. 907440061)

USA Petroleum SS #071, Ventura, (Case No. C-95114)

Corrective Action Plans for Leaking Underground Fuel Storage Tank Site were approved for the Reporting Period: September 1 through September 30, 2024

Glenville Property LLC, Los Angeles (Case No. 900350161)

Discount Tire Center, Long Beach (Case No. 908040243)

Summaries of the Underground Storage Tank Section's performance and quantities of contamination removed through September 30, 2024, are listed in Tables 1 and 2.

Commercial, Industrial, and Institutional (CII) Stormwater Program Update

In November 2023, the CII Unit released for public review a revised tentative General National Pollutant Discharge Elimination System Permit and Waste Discharge Requirements for CII Facilities in the Dominguez Channel/Greater Los Angeles and Long Beach Harbor Watershed and the Los Cerritos Channel/Alamitos Bay Watershed. The timing of release for public comments of the documents was coordinated with USEPA's release of its revised preliminary designation memo. The revised tentative CII Permit, initially proposed for adoption consideration for the March 28, 2024, board meeting, has been postponed to allow additional outreach and meetings with stakeholders. A revised tentative CII permit will be released upon issuance of a final designation of CII facilities by USEPA.

Work on the Stormwater Multiple Application and Report Tracking System (SMARTS), which will be used to implement the CII permit once adopted, continues. The SMARTS workgroup, which includes staff from the CII Unit, the State Water Board Department of Water Quality and Division of Information Technology (DIT), and DIT's contractors, meets on a bi-weekly basis to develop SMARTS and prepare the database to be functional upon the adoption of the CII permit.

SB1215 Program Update

Senate Bill 1215 (SB 1215) Wastewater Consolidation (WWC) Program staff (staff) continue to work closely with the State Water Board Division of Financial Assistance (DFA), public sewer service providers, and technical assistance (TA) providers Rural Community Assistance Corporation and Moonshot Missions to implement the WWC Program in the priority disadvantaged/severely disadvantaged communities (DACs/SDACs) within Region 4.

On August 15, 2024, staff and DFA staff conducted an updated median household income (MHI) determination for the Arbolada community based on the 2022 American Community Survey (ACS) data. The staff determined that Ojai Valley Sanitary District (OVSD) should submit a planning and design grant application to the DFA. On August 20, 2024, staff and DFA staff conducted an updated MHI determination for the Casitas Springs, Trusty Lane, and North Rice Road SDAC communities. These communities remain eligible for WWC-specific funding. On August 22, 2024, staff informed OVSD of the MHI determination and DAC status for the Arbolada community. Following the voluntary WWC approach to SB 1215, staff recommended OVSD submit a planning and design grant application to DFA, and OVSD is currently reviewing its options. On August 30, 2024, OVSD introduced the new Interim General Manager to staff. The interim General Manager will oversee the Casitas Springs, Trusty Lane, North Rice Road, and Arbolada projects. Since then, staff have been working with the new interim General Manager and OVSD staff on the planning and design grant application, including budget, for the three priority SDAC projects in the Casitas Springs, Trusty Lane, and North Rice Road communities.

On September 16, 2024, staff visited Gorman Municipal Wastewater Treatment Plant with the staff from the Golden Valley Municipal Water District. The visit aimed to assess current instrumentation and control issues at the plant to gather information for future treatment plant upgrade. On September 25, 2024, staff

organized a stakeholder meeting with the Golden Valley Municipal Water District and TA provider Moonshot Missions. Moonshot Missions is currently developing a needs assessment study to identify necessary treatment plant upgrades and will submit a TA Request to secure DFA funding.

Regional Programs Section

Section 401 Water Quality Certification and Wetlands Program

From September 1, 2024, to September 30, 2024, the Regional Board has received 6 new applications for Section 401 Water Quality Certification (WQC) actions.

DATE OF APPLICATION	APPLICANT	PROJECT
9/9/2024	California Department of Parks and Recreation	Stokes Creek Culvert Removal & New Bridge
9/9/2024	Moorpark Property 67, LLC	Moorpark 67/North Ranch Residential Development Project
9/16/2024	Ventura County Public Works Agency - Watershed Protection	Routine Operations and Maintenance Program
9/17/2024	Ojai Valley Land Conservancy	Ventura River Watershed Riparian Resilience Program (NOI)
9/26/2024	Santa Clarita Valley Water Agency	Investigation of the Existing Honby Pipeline (NOI)
9/27/2024	Ventura County Public Works	Matilija Canyon Road Emergency Repairs (RGP 63)

From September 1, 2024 to September 30, 2024, the Regional Board has issued 3 new Section 401 Water Quality Certification (WQC) actions.

DATE OF ISSUANCE	APPLICANT	PROJECT	ACTION
9/7/2024	Southern California Regional Rail Authority (SCRRA)	Antelope Valley Line Capacity and Service Improvements Program – Canyon Siding Extension Project	WQC Active Under General Order
9/17/2024	Limoneira Lewis Community Builders, LLC	Santa Paula Street Bridge Crossing Project	WQC Signed
9/20/2024	Ventura County Watershed Protection District	Coyote Creek Pilot Channel	WQC Signed

-
Certification project descriptions for applications currently being reviewed can be viewed on our website at the following link: [401 Water Quality Certification | Los Angeles Regional Water Quality Control Board](#)

Ballona Wetlands Restoration

Staff in the TMDL and Wetland and Riparian Protection Unit continue to coordinate with other agencies concerning the Ballona Creek Wetlands Sediment and Invasive Exotic Vegetation TMDL and the proposed Ballona estuary restoration. Further action by the Los Angeles Water Board is dependent on completion of the revised Environmental Impact Report (EIR) under the California Environmental Quality Analysis (CEQA) process.

Watershed Regulatory Section

On September 15 to 17, 2024, Watershed Regulatory Section staff joined the WaterReuse California Annual Conference in Garden Grove, California. This event serves as an essential summit for California's water recycling community, offering a platform for education and knowledge exchange, and showcasing the latest innovations in water recycling research, design, operations and management. This year's conference focused on strategies for implementing direct potable reuse, source control and pretreatment, and research on constituents of emerging concern. In addition, the conference highlighted successes in nonpotable and indirect potable reuse, stakeholder engagement and partnerships, and stormwater capture. The insights and connections gained from the conference will support staff in making more informed regulatory decisions and further implement the state's recycled water initiatives.

Summary of Individual Permit Activities

1. Inspections

	Date of Inspection	Permittee	Type of Inspection	Project Manager
1	9/17/24	AES Redondo Beach Generating Station	Termination Inspection	RL

2. Adoption/Issuance/Termination

- a. A tentative Termination Order for Urchinomics USA, Inc. Channel Islands Urchin Co, LLC was distributed for a 30-day public comment period on September 9, 2024.
- b. A revised dilution study for the LADWP Scattergood Generating Station was provided on September 10, 2024, based on the comments provided on May 13, 2024. The revised dilution study is currently under review.

Summary of General NPDES Permitting Activities

During the months of September 2024, there was one enrollment.

General Construction & Project Dewatering NPDES Permit Activities				
No.	Discharger	Date Of Coverage	Date Of Revision	Date Of Termination
1	Ventura County Watershed Protection District, Coyote Creek Pilot Channel Project At Camp Shafee Road, 800 S. Victoria Avenue, Ventura, California (NPDES No. Cag994004, CI-10802)	9/20/2024	---	---

Summary of General NPDES Permitting Inspections

For August 2024 staff conducted the following termination inspection.

	Date of Inspection	Permittee	Type of Inspection	Project Manager
1.	9/27/2024	Monuments Investments LLC, 652-656 N. Huntley Drive, West Hollywood. CI-10661	Termination	NJ
2	9/27/2024	Robertson Court LLC, 645 N. Robertson Blvd, West Hollywood, (CI-10615)	Termination	NJ
3	9/27/2024	Long Beach Department of Public Works, Colorado Lagoon Open Channel Phase 2A Project, E. Colorado St./E. Elliot Roadway, (CI-10714)	Termination	NJ

Administrative Services Section

Personnel Report Staffing Level

As of November 21, 2024 the Los Angeles Water Board staffing level is 154 staff, including 142 technical staff, 11 permanent analytical staff and 1 permanent clerical staff.

Separations

Caroline Fritschle, Environmental Scientist with Regional Programs separated, effective October 31, 2024.
