

Notice of Proposed No Further Action

For

Leggett Patriot
67670 Drive Thru Tree Road
Leggett, California

Case No. 1NMC582

Mendocino County

Notice Posting Date: March 27, 2023

End of Comment Period: April 27, 2023

Soil and groundwater investigations were conducted at the above-referenced site and a release of petroleum hydrocarbons was documented. North Coast Regional Water Quality Control Board (Regional Water Board) staff propose that no further work be required. The purpose of this notice is to inform interested parties, including owners of nearby land, that the case is being considered for closure, and to invite public comment on this proposed decision.

Problem Description

The site is an active service station where red diesel fuel (agricultural diesel) was observed in 2011 floating on top of groundwater in a site monitoring well located next to an agricultural diesel above ground storage tanks (AST) and associated dispenser pump. Recent sampling of the site monitoring wells indicates one detection of diesel approaching the water quality objective (WQO) and no detected diesel in any of the other site monitoring wells. The residual diesel in groundwater appears to have dissipated or degraded, is limited in extent and presents a low risk to neighboring properties.

Proposed Action

Case closure is proposed. This site meets the conditions for closure under State Water Resources Control Board Resolution 92-49.

Unless significant comments are received or new information is presented regarding this site, Regional Water Board staff plan to proceed with the closure process upon conclusion of the comment period. Please contact Francois Bush at (707) 543-7148 or Francois.Bush@waterboards.ca.gov with any questions or comments. Written comments may also be submitted to:
