Felicia Marcus, Chair
State Water Resources Control Board
1001 I Street, 24th Floor
Sacramento, CA 95814-0100

Subject: Comment Letter – 2016 Bay-Delta Plan Amendment & SED

Info about your organization

A am
[Name of organization] is very concerned with your Draft Revised Substitute Environmental Document (SED) supporting Phase 1 of the Board's Bay-Delta Water Quality Control Plan. If approved, your proposal requiring the Merced, Tuolumne, and Stanislaus rivers to dedicate 40 percent of unimpaired flow to fish and wildlife would cause irreversible harm to our region.

The Revised SED will not only financially harm our region's farmers, manufacturers and businesses, but it will directly harm organizations like ours who rely on the generosity of our community. We are an agriculturally based community; when actions are taken that directly harm the largest economic sector in the region, organizations that provide overlooked and underfunded services to our community are directly impacted.

Beyond devastating our community by demanding 40 percent unimpaired flows from February 1st- June 30th annually, your staff is proposing taking over control of our locally paid for, built and operated Don Pedro Reservoir. Don Pedro was built specifically to allow our community to survive a prolonged drought, similar to the one we are currently in, but the Revised SED now limits the amount of water available to our community.

[Insert specifics about your company/organization and how you will be impacted if needed]

Please consider the devastating impact your Revised SED will have on nonprofit organizations within our community.

Sincerely,

Julia A. Wagner
