**Subject:** Comments for ESJ Waste Discharge Requirements

Dear Ms. Townsend,

I am a member of the Butte-Yuba-Sutter Water Quality Coalition and am very concerned and opposed to the proposed changes to the Irrigated Lands Regulatory Program and Waste Discharge Requirements for the Eastern San Joaquin River Watershed ("ESJ"). The proposed changes should stay within the ESJ and not be expanded to other Regional Water Boards. The requirements within the proposed order may not be applicable to our area or other areas outside the ESJ. More extensive research is required before consolidating the proposed order to all other Regional Water Boards.

Sincerely yours,  
Jacquelyn Onstott,
