

WATERBOARDS Comments to A-2386-July 19 Board Item [Own Motion Order] due
7.18.2016 Noon

Own Motion Order, on a State Board level does not allow the public in the area of the MS4 permit to attend the meeting and comment, other than in writing. We ask that the review be scheduled within the jurisdiction of the MS4 permit.

We find no consistency with 40 CFR section 122.26(d)(2)(iv) in the process of approvals. Missing is the Fiscal Analysis for each fiscal year of the permit and for each participating agency. Source of funds and legal restrictions on use of such funds is not included.

We do not see Source Points identified and question the inclusion of Non-Source Points.

There is no consistency with the General Plan and its Elements for the City of Los Angeles under its jurisdiction; and we question if consistency exists in other jurisdictions.
