

It is beyond disingenuous to solicit comments on a matter that you have **NO INTENTION** of giving even the slightest consideration to. It is insulting to witness the perfunctory process that you give ABSOLUTELY no meaning to.

You and the Waterboard are going to do whatever you want. That was made abundantly clear after the 10 minutes of consideration resulted in an unanimous vote that completely ignored the testimony of almost a hundred people that took the time out of their day to participate in a hearing in which the board members demonstrated just how deaf they really are.

I personally have no intention of wasting any more of my precious time commenting on your twisted and absurd notions of environmental responsibility.
