

§ 64305. Schedule for Annual Fees.

(a) Each public water system shall pay an annual fee to the State Board in the amount provided in Table 64305-A.

(b) Except as provided in subsection (c), for each community water system, the number of service connections is equal to the number of service connections that the community water system reported on the electronic Annual Report (eAR), or other reporting tool as directed by the State Board, that was filed with the State Board for the calendar year immediately preceding the year in which the invoice is submitted to the community water system. If the community water system did not report the number of service connections to the State Board in the previous calendar year, the State Board will calculate the number of service connections.

(c) For each community water system that serves a group quarters, as defined in Section 64300, the fee will be based on the residential population as determined in the eAR or other reporting tools as directed by the State Board. The fee will be calculated based on residential population pursuant to Table 64305-A.

TABLE 64305-A – Public Water Systems Annual Fee

Water System Type	Fee
Community Water System	
100 or fewer service connections	\$677 or \$11.32 per service connection, whichever is greater
100 or fewer service connections (disadvantaged community)	\$339
101 to 1,000 service connections	\$11.32 per service connection
101 to 1,000 service connections (disadvantaged community)	\$339 plus \$3.76 per each service connection greater than 100
1,001 to 5,000 service connections	\$11.32 per each of first 1,000 service connections plus \$6.62 per each service connection greater than 1,000
1,001 to 5,000 service connections (disadvantaged community)	\$339 plus \$3.76 per each service connection greater than 100
5,001 to 15,000 service connections	\$11.32 per each of first 1,000 service connections plus \$6.62 per each service connection greater than 1,000 but less than 5,001 plus \$3.76 per each service connection greater than 5,000
5,001 to 15,000 service connections (disadvantaged community)	\$339 plus \$3.76 per each service connection greater than 100
15,001 or more service connections	\$11.32 per each of first 1,000 service connections plus \$6.62 per each service connection greater than 1,000 but less than 5,001 plus \$3.76 per each service connection greater than 5,000 but less than 15,001 plus \$2.56 per each service connection greater than 15,000
15,001 or more service connections (disadvantaged community)	\$339 plus \$3.76 per each service connection greater than 100 but less than 15,001 plus \$2.56 per each service connection greater than 15,000
Community Water System - Group Quarters	
3,300 or fewer persons served	\$677 or \$3.43 per person served, whichever is greater
3,301 to 16,500 persons served	\$3.43 per each of first 3,300 persons served plus \$2.01 per each person served greater than 3,300

16,501 to 49,500 persons served	\$3.43 per each of first 3,300 persons served plus \$2.01 per each person served greater than 3,300 but less than 16,501 plus \$1.14 per each person served greater than 16,500
49,501 or more persons served	\$3.43 per each of first 3,300 persons served plus \$2.01 per each person served greater than 3,300 but less than 16,501 plus \$1.14 per each person served greater than 16,500 but less than 49,501 plus \$0.78 per each person served greater than 49,500
Nontransient Noncommunity Water System	\$3.76 per customer served, but not less than \$862 ¹
Transient Noncommunity Water System	\$1,509
Wholesaler	\$11,316 plus \$2.58 per each MG ²

¹ Customer as defined in section 64400.30 of Article 1, Chapter 15.

² “Million Gallons” (MG) means the annual average, rounded to the nearest million, as reported to the State Board by the wholesaler in the eAR or other reporting tool as directed by the State Board, for the four years immediately preceding the year in which the invoice is submitted to the public water system, of the total gallons of water that the wholesaler produced from surface water and from groundwater and gallons of finished water that the wholesaler purchased or received from another public water system.
