**NOTICE OF OPPORTUNITY TO COMMENT AND PUBLIC HEARING
FOR DISCHARGE PERMIT**

**Fairfield-Suisun Wastewater Treatment Plant
Fairfield-Suisun Sewer District
1010 Chadbourne Road, Fairfield, Solano County**

Board staff has prepared a draft National Pollutant Discharge Elimination System permit for the above discharger in accordance with the Clean Water Act and Porter-Cologne Water Quality Control Act.

The Fairfield-Suisun Sewer District owns and operates the Fairfield-Suisun Wastewater Treatment Plant and its sanitary sewer system. The plant provides advanced secondary treatment for municipal wastewater from the City of Fairfield, City of Suisun City, and Travis Air Force Base. The draft permit would regulate an average daily discharge of up to about 24 million gallons per day to Boynton Slough, two managed duck ponds, and Ledgewood Creek. Boynton Slough receives most of the discharge through a shallow-water outfall, while the duck ponds and Ledgewood Creek receive intermittent discharges.

The deadline for receipt of comment on the draft permit was **5:00 p.m. on February 5, 2025**.

The Board will consider adopting the draft permit during a meeting to commence at 9:00 a.m. on **April 9, 2025**. Interested persons are invited to express their views at this hearing.

Pursuant to California Code of Regulations Title 23 section 2050(c), any party who challenges the Board's action through a petition to the State Water Resources Control Board under Water Code section 13320 will be limited to raising only those substantive issues that were raised before the Board at the hearing or in timely submitted correspondence.

All documents related to the draft permit may be inspected at the Board office. The draft permit and developments on this matter are available at waterboards.ca.gov/sanfranciscobay/board_decisions/tentative_orders.html.
