

## HOW TO READ THE TRACKED CHANGES VERSIONS OF THE PROPOSED AG ORDER 3.0 DOCUMENTS

The tracked changes versions of the documents show changes that have been made as we developed the draft and proposed Ag Order 3.0 and associated documents. These documents show the changes to the original Ag Order 2.0 to create the Draft Ag Order 3.0 and the Proposed Ag Order 3.0.

### Ag Order 2.0

These are the original documents we modified to create the draft and proposed documents. Text that does not have any underline, strikeout, or highlight is text from the original Ag Order 2.0.

### Draft Ag Order 3.0

Draft Ag Order 3.0 documents are those posted for public comment on November 1, 2016. These changes are shown in underlined text for additions and strike-through text for deletions.

### Proposed Ag Order 3.0

Proposed Ag Order 3.0 documents are those that are being proposed for approval by the Board. Changes made from the draft Ag Order 3.0 documents are shown in highlight. Additions are highlighted in green and deletions are highlighted in red.

The “clean” versions provided on our website show all the changes accepted with no underlines, strike through, or highlights. These are the proposed Ag Order and associated documents.

Here is an example of how to read the tracked changes versions:
