Our letter dated December 2, 2010, transmitted the revised tentative waste discharge requirements for renewal of your permit for the discharge of wastes under the National Pollutant Discharge Elimination System (NPDES) Program and tentative Time Schedule Order (TSO).

Pursuant to Division 7 of the California Water Code, this Regional Water Board at a public hearing held on February 3, 2011, reviewed the tentative requirements, considered all factors in the case, and adopted Order No. R4-2011-0029 (NPDES permit) and TSO No. R4-2011-0030.

Order R4-2011-0029 serves as an NPDES permit, and it expires on January 10, 2016. Section 13376 of the California Water Code requires that an application/Report of Waste Discharge for a new permit must be filed at least 180 days before the expiration date. The TSO No. R4-2011-0030 expires on August 3, 2013.

You are required to implement the Monitoring and Reporting Program (MRP) on the effective date (March 4, 2011) of Order No. R4-2011-0029. Your first monitoring report for the period of January 2011 through March 2011 is due by May 1, 2011. The first technical and/or progress report required under TSO No. R4-2011-0030 is due by the 15th of May 2011, as listed on page 11 of the TSO. Submit all monitoring and technical/progress reports to the Regional Water Board, ATTN: Information Technology Unit.

When submitting monitoring or technical reports to the Regional Water Board per these requirements, please include a reference to Compliance File CI-6045 and NPDES No. CA0003352, which will assure that the reports, are directed to the appropriate file and staff. Please do not combine your discharge monitoring reports with other reports, such as technical/progress reports. Submit each type of report as a separate document.
