TYPOGRAPHICAL CORRECTION TO AMENDED WATER RECLAMATION REQUIREMENTS (WRRs) ORDER NO. 87-50-A01 – JOINT OUTFALL SYSTEM'S SAN JOSE CREEK WATER RECLAMATION PLANT (WRP) (CI-6372, FILE NO. 77-050)

Dear Erika Bensch:

On October 23, 2025, the Los Angeles Regional Water Quality Control Board (Los Angeles Water Board) adopted Order No. R4-2025-0250, amending the WRRs for seven facilities, including Order No. 87-50 for the San Jose Creek WRP. The intent of this amendment was to update the WRRs to be consistent with the Water Quality Control Policy for Recycled Water (Recycled Water Policy) and the California Code of Regulations.

After the Order adoption, a typographical error was discovered in Table A-5 of Order No. 87-50-A01 (refer to pg. A-12 of the Order), which inadvertently set the due date for the Quarterly Self-Monitoring Report (SMR) for the period of April 1 through June 30 to August 1. The correct due date is August 15, which is consistent with the due date set in Order No. R4-2025-0250 (refer to pg. A-11 of the Order).

Our administrative records indicate that this error was not discussed in the response-to-comments, was not shown in underline/strikeout formatting, and was inconsistent with the other amended WRR Orders that were adopted through Order No. R4-2025-0250, which all retained the 15th-of-the-month due dates.

Because there was no indication that the August 1 date was intentional, it is considered a typographical error. Therefore, revising the due date in Table A-5 of Order No. 87-50-A01 from August 1 to August 15 is considered a non-substantial change that the Executive Officer is authorized to make pursuant to her delegated authority. As such, this letter hereby amends the due date in Table A-5 of Order No. 87-50-A01 accordingly. The corrected amended WRR Order for the San Jose Creek WRP is attached.

July 13, 2026

As a result of this correction, the Quarterly SMR for the period from April 1 through June 30, 2026, is due August 15, 2026.
