

## Los Angeles Regional Water Quality Control Board

August 22, 2013

Mr. Brian Gordon  
Regional Water Program Director  
Naval Facilities Engineering Command Southwest  
937 No. Harbor Dr.  
Box 81, Building 1, Floor 5, Room 560  
San Diego, CA 92132-0058

Dear Mr. Gordon:

**CORRECTION TO WASTE DISCHARGE REQUIREMENTS (WDRs) AND NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMIT – DEPARTMENT OF THE NAVY, SAN CLEMENTE ISLAND WASTEWATER TREATMENT PLANT (WWTP) (ORDER NO. R4-2013-0111, NPDES NO. CA0110175, CI NO. 6432)**

The staff of Los Angeles Regional Water Quality Control Board (Regional Water Board) has determined that a minor revision of the Monitoring and Reporting Program (MRP) language for the San Clemente Island WWTP permit (NPDES No. CA0110175, Order No. R4-2013-0111) is necessary for clarification. This minor revision does not require public notice or opportunity to comment. Section IV Effluent Monitoring Requirements (page E-10) is revised as follows:

*The discharger shall monitor secondary and/or tertiary effluent at EFF-01 as follows in Table 3.*

The Regional Water Board hereby modifies the language in section IV of the MRP as presented above.

If you have any questions, please contact Talitha Crain at (213) 576-6793 or Brandi Outwin-Beals at (213) 576-6664.

Sincerely,

A handwritten signature in cursive script that reads "Samuel Unger".

Samuel Unger, P.E.  
Executive Officer
