Reference is made to our letter of December 10, 2001, indicating that your Waste Discharge Requirements (WDR), Order No. 87-88 for the discharge of domestic wastewater at Topanga State Park could be replaced by a general WDR Order No. 01-031.

Regional Board staff have reviewed the information provided and have determined that the proposed discharge meets the conditions specified in Order No. 01-031, "*General Waste Discharge Requirements for Small Commercial and Multifamily Residential Subsurface Sewage Disposal Systems*," adopted by this Regional Board on February 22, 2001. Therefore, your individual WDR permit Order No. 87-88 adopted on June 22, 1987 will be rescinded at a Board Meeting to be held on April 25, 2002 in the City of Agoura Hills, Council Chambers located at 30001 Lady Face Court, Agoura Hills, California. Your enrollment under this general WDR Order No. 01-031 is effective on April 25, 2002.

Enclosed are your Waste Discharge Requirements, consisting of Order No. 01-031 and Monitoring and Reporting Program No. CI-6583. Your Monitoring and Reporting Program number (CI-6583) remains the same. Attached is the new Monitoring and Reporting Program. Please note that the discharge limits in Attachment A Table 3-10 water quality objectives for the Topanga Canyon area are applicable to your discharge.

The "Monitoring and Reporting Program" requires you to implement the monitoring program on the effective date of coverage under this permit. If this decision is made, you must submit a workplan to implement the groundwater monitoring program within 45 days of such notification. The workplan is subject to approval by the Executive Officer. Once approved it
