Dear Mr. Conard:

### WASTE DISCHARGE REQUIREMENTS - PETRO-DIAMOND TERMINAL COMPANY, MARINE TERMINAL, LONG BEACH, CA. (NPDES NO. CA0059358, CI NO. 6677)

Our letter dated February 26, 2008, transmitted a tentative order for renewal of your permit to discharge wastes under the National Pollutant Discharge Elimination System (NPDES).

Pursuant to Division 7 of the California Water Code, this Regional Board at a public hearing held on April 3, 2008, reviewed the tentative Waste Discharge Requirements (WDRs), considered all factors in the case, and adopted Order No. R4-2008-0016 (copy attached) relative to this waste discharge. Order No. R4-2008-0016 serves as your permit under the NPDES program and expires on March 10, 2013. Section 13376 of the California Water Code requires that an application for a new permit must be filed at least 180 days before the expiration date.

You are required to implement the *Monitoring and Reporting Program* (MRP) on the effective date of Order No. R4-2008-0016. Your first monitoring report for the May 2008, reporting period is due by August 1, 2008. All monitoring reports should be sent to the Regional Board, Attn: Information Technology Unit.

When submitting monitoring, technical reports, or any correspondence regarding the discharge under Order No. R4-2008-0016 to the Regional Board, please include a reference to *Compliance File No. CI 6677 and NPDES No. CA0059358*, which will assure that the reports are directed to the appropriate file and staff. Please do not combine your discharge monitoring reports with other reports. Please submit each type of report as a separate document.

We are sending the final copy of the permit only to the Discharger. For those on the mailing list who would like access to a copy of the final permit, please go to the Regional Board's website <http://www.waterboards.ca.gov/losangeles/>.
