2001 South Barrington Avenue
Los Angeles, CA 90025

TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM AND WASTE DISCHARGE REQUIREMENTS—ANTI-DEFAMATION LEAGUE FOUNDATION, ADL BUILDING, 10495 SANTA MONICA BOULEVARD, LOS ANGELES, CALIFORNIA (NPDES NO. CAG994004, CI-6740)

Dear Mr. Stronach:

In our letter dated April 6, 2009, we informed you that the subject discharge is regulated under Order No. R4-2008-0032, *Waste Discharge Requirements for Discharges of Groundwater From Construction and Project Dewatering to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties (General NPDES Permit No. CAG994004)*, which also serves as your NPDES permit.

On June 10, 2014, you informed the Regional Board that an industrial wastewater permit was obtained from the City of Los Angeles, Bureau of Sanitation. On May 29, 2014, the groundwater discharge from the facility was directed to the sewer. Since the NPDES permit is no longer necessary, you requested termination of coverage under the above-referenced General NPDES permit.

On June 17, 2014, Regional Board staff inspected the subject project site and verified that there is no discharge of groundwater from the site to surface water. Therefore, coverage under Board Order No. R4-2008-0032 for the subject facility is hereby terminated, except for enforcement purposes.

Please note that if future discharges of groundwater to surface water or land become necessary, you must file a Report of Waste Discharge with this Board and obtain appropriate Waste Discharge Requirements.

If you have any questions, please contact Alex Carlos at 213-576-6726.

Sincerely,

Samuel Unger, P.E.
Executive Officer
