TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM AND WASTE DISCHARGE REQUIREMENTS—CBS CORPORATION, 7800 BEVERLY BOULEVARD, LOS ANGELES, CALIFORNIA (NPDES NO. CAG994004, CI-7275)

Dear Mr. Limon:

The subject discharge is regulated under Order No. R4-2008-0032, *General National Pollutant Discharge Elimination System and Waste Discharge Requirements for Discharges of Groundwater from Construction and Project Dewatering to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on June 5, 2008.

We have reviewed your letter dated April 14, 2015, requesting termination of your coverage under the General Permit. The letter indicated that you have stopped discharging from the above-referenced facility to surface water and that the subject NPDES permit is no longer needed.

On May 13, 2013, Board staff inspected the project site, and observed that connection between wastewater treatment devices and outfall to storm water system still existed and thus wastewater could still be discharged to surface water. On September 24, 2015, we received photos from you demonstrating that the treatment devices have been removed. Since there is no discharge of wastewater from the facility, coverage under Board Order R4-2008-0032, General NPDES Permit No. CAG994004 for the facility is hereby terminated, except for enforcement purposes.

Please note that if future discharges of wastewater to surface waters or land become necessary, you must file a Report of Waste Discharge with this Board and obtain appropriate waste discharge requirements.

If you have any questions, please contact Gensen Kai at (213) 576-6651.

Sincerely,

Samuel Unger, P.E.
Executive Officer
