Our letters dated December 7, 2010, March 11, 2011, and April 13, 2011, transmitted the tentative and revised tentative waste discharge requirements for renewal of your permit for the discharge of wastes under the National Pollutant Discharge Elimination System (NPDES) Program and tentative and revised tentative Time Schedule Order (TSO).

Pursuant to Division 7 of the California Water Code, this Regional Water Board at a public hearing held on June 2, 2011, reviewed the tentative requirements, considered all factors in the case, and adopted Order No. R4-2011-0095 (NPDES permit) and TSO No. R4-2011-0096.

Section 13376 of the California Water Code requires that an application/Report of Waste Discharge for a new permit must be filed at least 180 days before the expiration date. The TSO No. R4-2011-0096 expires on December 21, 2013.

You are required to implement the Monitoring and Reporting Program (MRP) on the effective date (July 2, 2011) of Order No. R4-2011-0095. Your first monitoring report for the period of July 2011 through September 2011, is due by November 15, 2011. The first technical and/or progress report required under TSO No. R4-2011-0096 is due by December 31, 2011, as listed on page 5 of the TSO. Submit all monitoring and technical/progress reports to the Regional Water Board, ATTN: Information Technology Unit.

When submitting monitoring or technical reports to the Regional Water Board per these requirements, please include a reference to Compliance File CI-7497 and NPDES No. CA0063509, which will assure that the reports, are directed to the appropriate file and staff.
