3003 W. Olive Avenue
Burbank, CA 91505

Dear Ms. Clark:

TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMIT – 26800 PCH & ASSOCIATES, LLP, GULL’S WAY, 26755 LATIGO SHORE DRIVE, MALIBU, CALIFORNIA (NPDES NO. CAG994001, CI-7635)

The subject discharge is regulated under Order No. 97-045, *Waste Discharge Requirements for Groundwater Discharges From Construction and Project Dewatering to Surface Waters in the Coastal Watersheds of Los Angeles and Ventura Counties*, which also serves as your NPDES permit.

On August 25, 2004, we received a letter from your consultant, The Land & Water Company (L & W), requesting termination of coverage under General NPDES Permit No. CAG994001 (Order No. 97-45) for the subject site. The letter indicated that discharge of groundwater to the storm drain system from the facility ceased on August 17, 2004. Groundwater is currently being stored and reused for irrigation water at the site.

As indicated in our April 27, 2004, letter to your consultant (L & W), this Regional Board will not require Waste Discharge Requirements (WDRs) for using the groundwater for irrigation, provided that the Gull’s Way Property remains a single-family residence.

On August 26, 2004, Board staff inspected the facility and verified that there is no discharge of groundwater from the subject site to the storm drain. Since there is no discharge, coverage under Board Order No. 97-045, NPDES Permit No. CAG 994001 is hereby terminated, except for enforcement purposes.

Please note that if future discharges of groundwater to the surface waters become necessary, you must file a Report of Waste Discharge with this office and obtain WDRs prior to discharging any groundwater from the site to surface waters. Discharge without WDRs may be subject to a fine of up to \$25,000 per day.

California Environmental Protection Agency

Our mission is to preserve and enhance the quality of California’s water resources for the benefit of present and future generations.

Ms. Kari Clark
