TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT AND WASTE DISCHARGE REQUIREMENTS—GOLDEN STATE WATER COMPANY, SAN ANTONIO FILTER PLANT, 2355 GRAND AVENUE, OJAI, CALIFORNIA (NPDES NO. CAG994003, CI 7986)

Dear Mr. Vowell:

In our letter dated October 6, 2009, we informed you that the subject discharge is regulated under Order No. R4-2009-0047, *Waste Discharge Requirements for Discharges of Nonprocess Waste Water to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, which also serves as your NPDES permit.

On September 11, 2013, Golden State Water Company (Golden State) informed the Regional Board that Golden State has concluded all discharges related to the subject project. Since the NPDES permit is no longer necessary, Golden State requested termination of coverage under the above-referenced General NPDES permit.

On February 3, 2014, Regional Board staff inspected the subject project and verified that there is no discharge of groundwater from the site to surface water. Therefore, coverage under Board Order No. R4-2009-0047 for the subject project is hereby terminated, except for enforcement purposes.

Please note that if future discharges of groundwater to surface water or land become necessary, you must file a Report of Waste Discharge with this Board and obtain appropriate Waste Discharge Requirements.

If you have any questions, please contact Alex Carlos at (213) 576-6726.

Sincerely,

Samuel Unger, P.E.
Executive Officer
