Dear Mr. Hoagland:

**COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE
ELIMINATION SYSTEM PERMIT AND WASTE DISCHARGE REQUIREMENTS -
HOLLYHILLS UNIT 8A PROJECT, LOS ANGELES COUNTY DEPARTMENT OF
PUBLIC WORKS, ROSEWOOD AVENUE, WEST HOLLYWOOD, CALIFORNIA
(NPDES NO. CAG994001, CI-8287)**

We have completed our review of your application for a permit to discharge waste under the National Pollutant Discharge Elimination System (NPDES).

Based on the information provided, the proposed discharge of groundwater meets the conditions specified in Order No. 97-045, *General National Pollutant Discharge Elimination System Permit and Waste Discharge Requirements for Discharges of Treated Groundwater from Construction and Project Dewatering to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on May 12, 1997.

Enclosed are your Waste Discharge Requirements, which also serve as your NPDES permit, consisting of Order No. 97-045 and Monitoring and Reporting Program No. CI-8287. The discharge limitations in Part E of Order No. 97-045 are applicable to your discharge. The analytical data of groundwater samples collected for NPDES permit application indicated that concentrations of pollutants of concern are below "Daily Maximum" levels specified in Attachment B of Order No. 97-045. Therefore, discharge limitations in Attachment B of Order No. 97-045 are not applicable to your discharge. Prior to discharge, a representative sample of the effluent shall be obtained and analyzed to determine compliance with the discharge limitations.

June 25, 2001

The Monitoring and Reporting Program requires you to implement the monitoring program on the effective date of coverage under Order No. 97-045. All monitoring reports should be sent to the Regional Board, ATTN: Information Technology Unit.

When submitting monitoring and technical reports to the Regional Board per these requirements, please include a reference to "Compliance File No. CI-8287 and NPDES No. CAG994001", which will assure that the reports are directed to the appropriate file and staff. Also, please do not combine your discharge monitoring reports with other reports. Submit each type of report as a separate document.

In order to avoid future annual fees, please submit written notification when the project has been completed and the permit is no longer needed.

We are sending Board Order No. 97-045 only to the applicant. For those on the mailing list, please refer to the Board Order previously sent to you. A copy of the Order will be furnished to anyone who requests it.

If you have any questions, please contact Dr. James Tang at (213) 576-6696. Sincerely,

Dennis A. Dickerson
Executive Officer
