Ms. Julie B. Raming
Sr. Environmental Engineer
Georgia-Pacific Corporation
133 Peachtree Street, NE(30303), 9TH Floor
Atlanta, Georgia 30348-5605

Dear Ms. Raming:

COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM AND WASTE DISCHARGE REQUIREMENTS – GEORGIA PACIFIC CORPORATION, 760 SOUTH VAIL AVENUE, MONTEBELLO, CALIFORNIA (NPDES NO. CAG914001, CI-8359)

We have completed our review of your application for a permit to discharge waste to surface water under the National Pollutant Discharge Elimination System (NPDES).

Based on the attached Fact Sheet and other information provided, we have determined that the proposed discharge of groundwater meets the conditions to be regulated under Order No. 97-044, *General National Pollutant Discharge Elimination System and Waste Discharge Requirements For Discharges of Volatile Organic Compound Contaminated Groundwater to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on May 12, 1997.

Enclosed are your Waste Discharge Requirements, which also serve as your NPDES permit, consisting of Order No. 97-044 and Monitoring and Reporting Program No. CI-8359. Prior to starting discharge, a representative sample of the effluent shall be taken and analyzed to determine compliance with the discharge limitations. The discharge of waste flows into Rio Hondo, thence to Los Angeles River; therefore, the discharge limits in Part E and Attachment A.7.f of Order No. 97-044 are applicable to your discharge.

The Monitoring and Reporting Program requires you to implement the monitoring program on the effective date of coverage under this permit. All monitoring reports should be sent to the Regional Board, ATTN: Information Technology Unit.

When submitting monitoring or technical reports to the Regional Board per these requirements, please include a reference to "Compliance File No. CI-8359 and NPDES No. CAG914001", which will assure that the reports are directed to the appropriate file and staff. Also, please do not combine other reports with your monitoring reports. Submit each type of report as a separate document.

In order to avoid future annual fees, please submit written notification when the project has been completed and the permit is no longer needed.

California Environmental Protection Agency

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption
For a list of simple ways to reduce demand and cut your energy costs, see the tips at: <http://www.swrcb.ca.gov/news/echallenge.html>

Our mission is to preserve and enhance the quality of California's water resources for the benefit of present and future generations.
