TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMIT—CHEVRON FACILITY NO. 306437, 11203 WASHINGTON PLACE, CULVER CITY, LOS ANGELES, CALIFORNIA (NPDES NO. CAG914001, CI-8458)

Dear Mr. Jones:

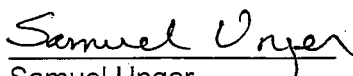

The subject discharge is regulated under Order No. R4-2007-0022, General National Pollutant Discharge Elimination System Permit and Waste Discharge Requirements for *Discharges of Treated Groundwater From Investigation and/or Cleanup of Volatile Organic Compounds Contaminated-Sites to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on April 5, 2007.

We have reviewed your November 30, 2010, letter which requested termination of your coverage under the General NPDES Permit. The letter indicated that you have ceased the discharge of treated groundwater from the subject facility. On February 2, 2011, Board staff inspected the project site and verified that there is no discharge of groundwater from the facility. Since there is no discharge of groundwater from the facility to surface waters, coverage under Board Order No. R4-2007-0022, General NPDES Permit No. CAG914001, for the facility is hereby terminated.

Please note that if future discharges of groundwater to surface waters or land become necessary, you must file a Report of Waste Discharge with this Board and obtain appropriate waste discharge requirements.

If you have any questions, please contact Namiraj Jain at (213) 620-6003.

Sincerely,

Samuel Unger
Executive Officer
