CERTIFIED MAIL
RETURN RECEIPT REQUESTED
CLAIM NO. 7000 0520 0024 7219 8900

Dear Ms. Damron:

COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT AND WASTE DISCHARGE REQUIREMENTS – CITY OF LOS ANGELES DEPARTMENT OF WATER AND POWER, HYDROSTATIC TEST - HAYNES GENERATING STATION REPOWERING PROJECT, LONG BEACH, CALIFORNIA (NPDES NO. CAG674001, CI-8529)

We have completed our review of your application for a permit to discharge waste under the National Pollutant Discharge Elimination System (NPDES). You have proposed to discharge hydrostatic test water at the above-referenced site.

Based on the information provided, the proposed discharge of groundwater meets the conditions specified in Order No. 97-047, *General National Pollutant Discharge Elimination System Permit and Waste Discharge Requirements for Discharges of Hydrostatic Test Water to Surface Waters in the Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on May 12, 1997.

Enclosed are your Waste Discharge Requirements, which also serve as your General NPDES permit, consisting of Order No. 97-047 and Monitoring and Reporting Program No. CI-8529. The discharge limitations in Part E of Order No. 97-047 are applicable to your discharge. The discharge drains to San Gabriel River Estuary, therefore, the discharge limitations in Attachment A are not applicable to your discharge. Prior to starting discharge, a representative sample of the effluent shall be obtained and analyzed to determine compliance with the discharge limitations.

The Monitoring and Reporting Program requires you to implement the monitoring program on the effective date of coverage under this permit. All monitoring reports should be sent to the Regional Board, ATTN: Information Technology Unit.

When submitting monitoring or technical reports to the Regional Board per these requirements, please include a reference to "Compliance File No. CI-8529 and NPDES No. CAG674001", which will assure that the reports are directed to the appropriate file and staff. Also, please do

California Environmental Protection Agency

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption

***For a list of simple ways to reduce demand and cut your energy costs, see the tips at:

not combine other reports with your monitoring reports. Submit each type of report as a separate document.

In order to avoid future annual fees, please submit written notification when the project has been completed and the permit is no longer needed.

We are sending Board Order No. 97-047 only to the applicant. For those on the mailing list, please refer to the Board Order previously sent to you. A copy of the Order will be furnished to anyone who requests it.

If you have any questions, please contact Dr. James Tang at (213) 576-6696.

Sincerely,

Dennis A. Dickerson
Executive Officer
