Los Angeles, CA 90012

TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT AND WASTE DISCHARGE REQUIREMENTS— LOS ANGELES CITY, DEPARTMENT OF WATER AND POWER, HAYNES GENERATING STATION REPOWERING PROJECT, CALIFORNIA (NPDES NO. CAG674001, CI-8529)

Dear Ms. Rubin:

In our letter dated November 24, 2009, we informed you that the subject discharge is regulated under Order No. R4-2009-0068, *General NPDES and Waste Discharge Requirements for Discharges of Low Threat Hydrostatic Test Water to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, which also serves as your NPDES permit.

On September 27, 2013, Los Angeles City, Department of Water and Power (LADWP) informed the Regional Board that LADWP has concluded all discharges related to the subject project. LADWP requested termination of coverage under the above-referenced General NPDES permit.

On October 21, 2013, Regional Board staff inspected the subject project and verified that there is no discharge of hydrostatic test water from the site to surface water. Since there is no discharge of hydrostatic test water from the facility, coverage under Board Order No. R4-2009-0068, General NPDES No. CAG674001 is hereby terminated, except for enforcement purposes.

Please note that if future discharges of hydrostatic test water to surface water or land become necessary, you must file a Report of Waste Discharge with this Board and obtain appropriate Waste Discharge Requirements.

If you have any questions, please contact Alex Carlos at (213) 576-6726.

Sincerely,

Samuel Unger, P.E.
Executive Officer
