Dear Mr. Rezai:

**COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT AND WASTE DISCHARGE REQUIREMENTS – CITY OF INGLEWOOD, WELL NO. 6, 3901 102<sup>ND</sup> STREET, INGLEWOOD, CALIFORNIA (NPDES NO. CAG994001, CI-8560)**

We have completed our review of your application for a permit to discharge waste under the National Pollutant Discharge Elimination System (NPDES). Up to 4.32 million gallons per day of groundwater will be discharged during the aquifer and pumping tests. The aquifer and pumping tests will be short-term duration discharges, and will last up to 10 days. These tests are necessary to determine the productive capacity of the well and to properly design the size of the pump

Based on the attached Fact Sheet and other information provided, we have determined that the proposed groundwater discharge meets the conditions to be regulated under Order No. 97-045, *General National Pollutant Discharge Elimination System Permit and Waste Discharge Requirements For Groundwater Discharges from Construction and Project Dewatering to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on May 12, 1997.

Enclosed are your Waste Discharge Requirements, which also serve as your NPDES permit, consisting of Order No. 97-045 and Monitoring and Reporting Program No. CI-8560. Prior to starting discharge, a representative sample of the effluent shall be obtained and analyzed to determine compliance with the discharge limitations. The discharge limits in Part E and Attachment B of Order No. 97-045 are applicable to your discharge. The groundwater discharge flows into Dominguez Channel; therefore, the discharge limits in Attachment A of Order No. 97-045 are not applicable to your discharge.

The Monitoring and Reporting Program requires you to implement the monitoring program on the effective date of coverage under this permit. All monitoring reports should be sent to the Regional Board, ATTN: Information Technology Unit. When submitting monitoring or technical reports to the Regional Board per these requirements, please include a reference to "Compliance File No. CI-8560 and NPDES No. CAG994001", which will assure that the reports are directed to the appropriate file and staff. Also, please do not combine other reports with your monitoring reports. Submit each type of report as a separate document.

April 1, 2003

In order to avoid future annual fees, please submit written notification when the project has been completed and the permit is no longer needed.

We are sending a copy of Order No. 97-045 only to the applicant. For those on the mailing list, please refer to the Board Order sent to you previously. A copy of the Order will be furnished to anyone who requests it.

If you have any questions, please contact Raul Medina at (213) 620-2160.

Sincerely,

Dennis A. Dickerson  
Executive Officer
