Dear Mr. Martin:

CONTINUATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT AND WASTE DISCHARGE REQUIREMENTS – MOLE-RICHARDSON COMPANY, 937 N. SYCAMORE AVENUE, HOLLYWOOD, CALIFORNIA (NPDES NO. CAG994004, CI-8565)

We have completed our review of your Notice of Intent (NOI) and analytical results of representative groundwater samples submitted in order to continue enrollment under the General NPDES Permit. Discharge of treated groundwater generated from the above-referenced facility is currently regulated under NPDES General Permit No. CAG994002 (Order No. 97-043) adopted by this Board on May 12, 1997.

Based on the attached Fact Sheet and other information provided, we have determined that the groundwater discharge meets the conditions to be regulated under Order No. R4-2003-0111, *General National Pollutant Discharge Elimination System and Waste Discharge Requirements for Discharges of Groundwater from Construction and Project Dewatering to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on August 7, 2003. Your existing enrollment under NPDES Permit No. CAG994002, Order No. 97-043, which was issued to you on April 7, 2003, is superseded by this new permit that terminated your coverage under Order No. 97-043.

Enclosed are your Waste Discharge Requirements, which also serve as your NPDES permit, consisting of Order No. R4-2003-0111 and Monitoring and Reporting Program No. CI-8565. The discharge limitations in Parts E.1.a. and E.1.c. of Order No. R4-2003-0111 for the specific constituents listed on the table with the enclosed Fact Sheet are applicable to your discharge. The groundwater discharge flows to the Ballona Creek; therefore, the discharge limitations in Attachment B of Order No. R4-2003-0111 are not applicable to your discharge.

The Monitoring and Reporting Program requires you to implement the monitoring program on the effective date of coverage under this permit. All monitoring reports should be sent to the Regional Board, ATTN: Information Technology Unit. When submitting monitoring or technical reports to the Regional Board per these requirements, please include a reference to "Compliance File No. CI-8565 and NPDES No. CAG994004", which will assure that the reports are directed to the appropriate file and staff. Also, please do not combine other reports with your monitoring reports. Submit each type of report as a separate document.
