Dear Mr. Maguire:

CONTINUATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT AND WASTE DISCHARGE REQUIREMENTS—ALFRED MAGUIRE, ANGEL SERVICE STATION, 100 VENICE WAY, VENICE, CALIFORNIA (NPDES NO. CAG834001, CI-8595)

We have completed our review of your Notice of Intent (NOI) Form dated June 7, 2007, and analytical results of representative groundwater samples submitted in order to continue enrollment under the General NPDES Permit. Discharge of groundwater generated from the above-referenced facility is currently regulated under General NPDES Permit No. CAG834001 (Order No. R4-2002-0125) adopted by this Board on July 11, 2002.

Based on the attached Fact Sheet and other information provided, we have determined that the groundwater discharge meets the conditions to be regulated under Order No. R4-2007-0021, *Waste Discharge Requirements for Treated Groundwater and Other Wastewaters from Investigation and/or Cleanup of Petroleum Fuel-Contaminated Sites to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on April 5, 2007. Your existing enrollment under Order No. R4-2002-0125, which was issued to you on April 30, 2003, is superseded by this new permit.

Enclosed are your Waste Discharge Requirements, which also serve as your NPDES permit, consisting of Order No. R4-2007-0021 and Monitoring and Reporting Program No. CI-8595. The groundwater discharge flows into Venice Beach. Therefore, the discharge limitations in Attachment B of Order No. R4-2007-0021 are not applicable to your discharge.

The Monitoring and Reporting Program requires you to implement the monitoring program on the effective date of coverage under this permit. All monitoring reports should be sent to the Regional Board, ATTN: Information Technology Unit. When submitting monitoring or technical reports to the Regional Board per these requirements, please include a reference to "Compliance File No. CI-8595 and NPDES No. CAG834001", which will assure that the reports are directed to the appropriate file and staff. Also, please do not combine other reports with your monitoring reports. Submit each type of report as a separate document.

In order to avoid future annual fees, please submit written notification when the project has been completed and the permit is no longer needed.
