TERMINATION OF COVERAGE UNDER GENERAL WASTE DISCHARGE REQUIREMENTS - 5/126 INTERCHANGE AT SANTA CLARA RIVER BRIDGE, SANTA CLARITA, CALIFORNIA (ORDER No. 93-010, FILE No. 02-039, CI No. 8636)

Dear Mr. Patel:

In our letter dated September 4, 2003, we informed you that the subject discharge is regulated under Order No. 93-010, which specifies your Waste Discharge Requirements (WDR).

Based on information provided to the Information Technology Unit on February 14, 2005, the construction and dewatering activities have been completed a long time ago and you requested termination of the WDR. A follow-up telephone conversation with Mr. Jagdish Patel on February 10, 2010 confirmed the completion of construction.

Since you have completed the construction and dewatering activities and no longer need the WDR, the coverage under Board Order No. 93-010, CI No. 8636 for the subject facility is hereby terminated with the exception of enforcement under the term of the permit.

If you have any questions, please contact the Project Manager, Mr. Orlando Gonzalez, at (213) 620-2267 or the Chief of Groundwater Permitting Unit, Dr. Rebecca Chou, at (213) 620-6156.
Sincerely,

Tracy J. Egoscue
Executive Officer
