Dear Mr. Blankenship:

TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM AND WASTE DISCHARGE REQUIREMENTS—HARRISON/ROBERTS ENVIRONMENTAL MANAGEMENT, 371 S. FAIRFAX AVENUE, LOS ANGELES, CALIFORNIA (NPDES NO. CAG994004, CI-8690)

The subject discharge is regulated under Order No. R4-2003-0111, *Waste Discharge Requirements for Discharges of Groundwater from Construction and Project Dewatering to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, which also serves as your NPDES permit.

In a letter dated June 12, 2006, you requested termination of the subject permit because you no longer propose to discharge the treated wastewater to surface waters. However, the groundwater remedial action at the site is still active under the oversight of this Regional Board. An inspection conducted by staff from this office on May 5, 2007, found that there is no discharge of groundwater at the site to surface waters during the inspection.

Since you have ceased the discharge of groundwater to surface waters at the site, an NPDES permit is not necessary and coverage under Board Order No. R4-2003-0111 for the subject site is hereby terminated except for enforcement purposes.

Please note that if future discharges of groundwater to surface waters become necessary, you must file a Report of Waste Discharge with this office and obtain Waste Discharge Requirements (WDRs) prior to discharging any groundwater from the site to surface waters. If you have any questions, please contact Gensen Kai at (213) 576-6651.

Sincerely,

Deborah J. Smith
Interim Executive Officer
