Santa Ana, CA 92705

TERMINATION OF COVERAGE UNDER GENERAL WASTE DISCHARGE REQUIREMENTS – PETROLEUM HYDROCARBON FUEL AND/OR VOLATILE ORGANIC COMPOUND IMPACT SITES – ITT CANNON, 3209 HUMBOLDT STREET, LOS ANGELES, CALIFORNIA (ORDER NO. R4-2002-0030, SERIES NO. 044, CI-8694)

Dear Mr. Singh:

In our letter dated February 5, 2004, we informed you that the subject discharge is regulated under Order No. R4-2002-0030, (SERIES NO. 044), which specifies your Waste Discharge Requirements (WDR).

In a letter dated October 29, 2004, you notified the Regional Board that the in-situ remediation performed for the site is complete and that you requested termination of the WDR.

Since you have completed the in-situ remediation and no longer need the WDR, the coverage under Board Order No. R4-2002-0030, for the subject facility is hereby terminated with the exception of enforcement under the term of the permit.

If you have any questions, please contact the Chief of Groundwater Permitting Unit, Dr. Rebecca Chou, at (213) 620-6156.

Sincerely,

Tracy J. Egoscue
Executive Officer
