Dear Ms. Berglund:

COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM AND WASTE DISCHARGE REQUIREMENTS – BERGLUND PROPERTY, TRIANGLE GAS STATION, 2900-2918 RIVERSIDE DRIVE, LOS ANGELES, CALIFORNIA (NPDES NO. CAG834001, CI-8732)

We have completed our review of your application for a permit to discharge waste to surface waters under the National Pollutant Discharge Elimination System (NPDES).

Based on the attached Fact Sheet and other information provided, we have determined that the proposed discharge of treated groundwater from groundwater cleanup activities meets the conditions to be regulated under Order No. R4-2002-0125, *General National Pollutant Discharge Elimination System and Waste Discharge Requirements for Treated Groundwater and Other Wastewaters from Investigation and/or Cleanup of Petroleum Fuel-Contaminated Sites to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on July 11, 2002.

Enclosed are your Waste Discharge Requirements, which also serve as your NPDES permit, consisting of Order No. R4-2002-0125 and Monitoring and Reporting Program No. CI-8732. Prior to starting discharge, a representative sample of the effluent is required to be obtained and analyzed to determine compliance with the discharge limitations. The groundwater discharge flows into the Los Angeles River. Therefore, the discharge limitations in Attachment B.7.c of Order No. R4-2002-0125 are applicable to your discharge.

The Monitoring and Reporting Program requires you to implement the monitoring program on the effective date of coverage under this permit. All monitoring reports should be sent to the Regional Board, [ATTN: Information Technology Unit](#).

When submitting monitoring or technical reports to the Regional Board per these requirements, please include a reference to "Compliance File No. CI-8732 and NPDES No. CAG834001", which will assure that the reports are directed to the appropriate file and staff. Also, please do not combine other reports with your monitoring reports. Submit each type of report as a separate document.
