CERTIFIED MAIL No.: 7000 0520 0024 7128 1719
RETURN RECEIPT REQUESTED

Mr. Michel Dougherty, General Manager
Petro Diamond Terminal Company
P.O. Box 19617
Long Beach, CA 90813

Dear Mr. Dougherty:

COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM AND WASTE DISCHARGE REQUIREMENTS – PETRO DIAMOND TERMINAL COMPANY, TANK NO. 10, 1920 LUGGER WAY, LONG BEACH, CALIFORNIA (NPDES NO. CAG674001, CI-8737)

We have completed our review of your application for a permit to discharge waste under the National Pollutant Discharge Elimination System (NPDES).

Based on the attached Fact Sheet and other information provided, the proposed discharge of hydrostatic test water meets the conditions to be regulated under Order No. 97-047, *General National Pollutant Discharge Elimination System Permit and Waste Discharge Requirements for Discharges of Hydrostatic Test Water to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on May 12, 1997.

Enclosed are your Waste Discharge Requirements, which also serve as your NPDES permit, consisting of Order No. 97-047 and Monitoring and Reporting Program No. CI-8737. Prior to starting discharge, a representative sample of the effluent shall be obtained and analyzed to determine compliance with the discharge limitations. The wastewater flows into the Long Beach Harbor, therefore, discharge limitations in Attachment A are not applicable to your discharge. The discharge limitations in Part E and Attachment B of Order No. 97-047 are applicable to your discharge.

The Monitoring and Reporting Program requires you to implement the monitoring program on the effective date of this permit. All monitoring reports should be sent to the Regional Board, ATTN: Information Technology Unit. When submitting monitoring or technical reports to the Regional Board per these requirements, please include a reference to "Compliance File No. CI-8737 NPDES No. CAG674001", which will assure that the reports are directed to the appropriate file and staff. Also, please do not combine other reports with your monitoring reports. Submit each type of report as a separate document.

In order to avoid future annual fees, please submit written notification when the project has been completed and the permit is no longer needed.

California Environmental Protection Agency

Our mission is to preserve and enhance the quality of California's water resources for the benefit of present and future generations.

Mr. Michael Dougherty
Petro Diamond Terminal Company
