Dear Mr. Maffit:

REVISED COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT AND WASTE DISCHARGE REQUIREMENTS – DOLE FOOD COMPANY, INC., WESTLAKE VILLAGE SPA & HOTEL, TWO DOLE DRIVE, WESTLAKE VILLAGE, CALIFORNIA (NPDES NO. CAG994004, CI-8744)

In our letter dated May 10, 2004, we authorized you to discharge groundwater generated from your construction dewatering project under Order No. R4-2003-0111, *General National Pollutant Discharge Elimination System and Waste Discharge Requirements for Discharges of Groundwater from Construction and Project Dewatering to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties* which also serves as your NPDES permit.

We have received your letter dated July 15, 2004, requesting the Regional Board to: 1) combine the seepage groundwater from Lindero Headquarters Company (LHC) located at One Dole Drive with the construction dewatering groundwater at Two Dole Drive; and 2) allow blending of the treated groundwater with potable water to reduce the concentration of mineral constituents which have limitations under the above-referenced permit. Regional Board staff have reviewed the information that you have provided. We have updated the Fact Sheet to accommodate your request.

Enclosed are your Waste Discharge Requirements, which also serve as your NPDES permit, consisting of Order No. R4-2003-0111 and Monitoring and Reporting Program No. CI-8744. The discharge limitations in Part E.1.a. and b of Order No. R4-2003-0111 for the specific constituents listed on the Table with the enclosed Fact Sheet are applicable to your discharge. The groundwater discharge flows into Westlake Lake which drains into Triunfo Creek, thence to Malibu Creek. Therefore, the discharge limits in Attachment B.5.a. of Order No. R4-2003-0111 are applicable to your discharge.

The Monitoring and Reporting Program requires you to implement the monitoring program on the effective date of coverage under this permit. All monitoring reports should be sent to the Regional Board, ATTN: Information Technology Unit. When submitting monitoring or technical reports to the Regional Board per these requirements, please include a reference to "Compliance File No. CI-8744 and NPDES No. CAG994004", which will assure that the reports are directed to the appropriate file and staff. Also, please do not combine other reports with your monitoring reports. Submit each type of report as a separate document.
