### WASTE DISCHARGE REQUIREMENTS PORT OF LOS ANGELES MAINTENANCE DREDGING (FILE NO. 04-063)

Reference is made to our letter of May 5, 2004, which transmitted copies of tentative waste discharge requirements (WDRs) and a receiving water monitoring program for dredging and disposal of dredged material from the Port of Los Angeles Maintenance Dredging project to be performed within Los Angeles Harbor.

In accordance with the California Water Code, this Board, at a public meeting held on June 10, 2004, reviewed the tentative requirements, considered all factors in the case and adopted Order No. R4-2004-00961 relative to this waste discharge (copy enclosed). The Standard Provisions, which were sent to you with the tentative requirements, were adopted without change and are part of this order.

All monitoring reports should be sent to the Regional Board, Attention: Data and Information Management Unit. Reference all technical monitoring reports required by this Order to our Compliance File No. 8766. We would appreciate it if you would not combine other reports, such as progress or technical reports, with your monitoring reports, but would submit each type of report as a separate document.

Should you have any questions, please telephone me at (213) 576-6718.

  
J. MICHAEL LYONS  
Environmental Specialist IV
