**TERMINATION OF COVERAGE UNDER GENERAL WASTE DISCHARGE REQUIREMENTS  
- HR TEXTRON, 25200 WEST RYE CANYON ROAD, SANTA CLARITA, CALIFORNIA  
(SLIC NO. 669, SITE ID NO. 2041Y00, FILE NO. 98-013, ORDER NO. R4-2002-0030, SERIES NO.  
052, CI-8821)**

Dear Mr. McCabe:

The Los Angeles Regional Water Quality Control Board (Regional Board) letter dated December 22, 2004, indicated that the subject discharge is regulated under Order No. R4-2002-0030, which also serves as your Waste Discharge Requirements (WDR).

By letter dated May 15, 2007, Mr. Geoff Knight of ENSR, on your behalf, notified the Regional Board that work performed under the WDR is complete and that no injection has occurred for several years. He therefore requested termination of coverage under Order No. R4-2002-0030.

The Regional Board regularly receives monitoring reports for the site documenting groundwater conditions, and will continue to receive these reports. Because injection terminated several years ago and no additional injection is planned under the existing WDR, the WDR permit is no longer needed. Coverage under Board Order No. R4-2002-0030 for the subject facility is hereby terminated.

If you have any questions, please contact Mr. Peter Raftery at (213) 576-6724 or Ms. Su Han at (213) 576-6735.

Sincerely,

*fw*  
*Daniel A. Bahrawski AEO*  
Deborah J. Smith  
Interim Executive Officer
