Dear Mr. Scanlon:

COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM AND WASTE DISCHARGE REQUIREMENTS – SOUTHERN CALIFORNIA WATER COMPANY, HAWAIIAN PLANT, 20702 HAWAIIAN AVENUE, CITY OF LAKEWOOD, CALIFORNIA (NPDES NO. CAG994003, CI-8898)

We have completed our review of your application for a permit to discharge waste under the National Pollutant Discharge Elimination System (NPDES).

Based on the attached Fact Sheet and other information provided, we have determined that the backwash water discharge meets the conditions to be regulated under General NPDES Permit No. CAG994003, Order No. R4-2004-0058, *Waste Discharge Requirements for Discharges of Nonprocess Wastewater to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on April 1, 2004.

Enclosed are your Waste Discharge Requirements, which also serve as your NPDES permit, consisting of Order No. R4-2003-0058 and Monitoring and Reporting Program No. CI-8898. The discharge limitations in Part E.1.a.i and E.1.b.ii of Order No. R4-2004-0058 are applicable to your discharge. Discharge from the facility drains to Coyote Creek. Therefore, the discharge limitations in Attachment B are not applicable to your discharge.

The Monitoring and Reporting Program requires you to implement the monitoring program on the effective date of coverage under this permit. All monitoring reports should be sent to the Regional Board, ATTN: Information Technology Unit. When submitting monitoring or technical reports to the Regional Board per these requirements, please include a reference to "Compliance File No. CI-8898 and NPDES No. CAG994003", which will assure that the reports are directed to the appropriate file and staff. Also, please do not combine other reports with your monitoring reports. Submit each type of report as a separate document.

In order to avoid future annual fees, please submit written notification when the project has been completed and the permit is no longer needed.
