Point Mugu, CA 93042-5033

TERMINATION OF COVERAGE UNDER GENERAL WASTE DISCHARGE REQUIREMENTS POINT MUGU BUILDING 631 – NAVAL BASE VENTURA COUNTY, POINT MUGU FACILITY, POINT MUGU, CALIFORNIA (ORDER NO. R4-2005-0030, SERIES NO. 020, CI NO. 8906, SCP NO. 282, SITE ID. NO. 16547)

Dear Mr. Shide

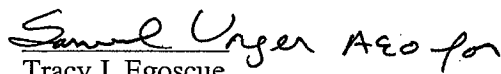

In our letter dated July 8, 2005, we informed you that the subject discharge is regulated under Order No. R4-2005-0030, Series No. 020, which also serves as your Waste Discharge Requirements (WDR).

In your letter dated July 7, 2009, you notified the Regional Board that work performed for the gas station cleanup is complete and that you request rescission of the WDR.

The most recent monitoring results were provided to the Regional Board in the April 2009, *Final Groundwater Monitoring Report First Quarter 2009 Government Gas Station Building 631*. The groundwater analytical results in the report show that remediation resulting from sulfate injection is no longer active and that contaminant concentrations have declined significantly. Since remediation under the WDR has been completed, no further sulfate injection is planned, and the WDR is no longer needed, the coverage under Board Order No. R4-2005-0030, Series No. 020, CI No. 8906, for the subject facility is hereby terminated.

If you have any questions, please contact Mr. Peter Raftery at (213) 576-6724.

Sincerely,

Tracy J. Egoscue
Executive Officer
