RETURN RECEIPT REQUESTED
CLAIM NO. 7002 0860 0004 5295 6970

COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT AND WASTE DISCHARGE REQUIREMENTS, PARKING LOT RECLAMATION AND SANTA CLARA RIVER BANK STABILIZATION PROJECT, SIX FLAGS MAGIC MOUNTAIN, 26101 MAGIC MOUNTAIN PKWY, VALENCIA, CALIFORNIA (NPDES NO. CAG994004, CI-8985)

Dear Mr. Burkhardt:

We have completed our review of your application for a permit to discharge waste under the National Pollutant Discharge Elimination System (NPDES). You have proposed to discharge up to 2.5 million gallons per day (mgd) of treated groundwater from the above-referenced construction project, beginning April 1, 2006. The short term construction dewatering is expected to be completed in one month. The high rate of discharge is necessary because the construction project is being conducted within a bank of the Santa Clara River. Should the construction dewatering component of this project last past six months, then the discharge will be limited to no greater than 1.0 mgd.

Based on the information provided, the proposed discharge of treated groundwater meets the conditions to be regulated under Order No. R4-2003-0111, *General National Pollutant Discharge Elimination System Permit and Waste Discharge Requirements for Discharges of Groundwater From Construction and Project Dewatering to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on August 7, 2003.

Enclosed are your Waste Discharge Requirements, which also serve as your General NPDES Permit, consisting of Order No. R4-2003-0111 and Monitoring and Reporting Program No. CI-8985. The discharge limitations in Part E.1.a. and c. of Order No. R4-2003-0111 for the specific constituents listed on the Table with the enclosed Fact Sheet are applicable to your discharge. The discharge flows to Santa Clara River between Bouquet Canyon Road Bridge and West Pier Highway 99. Your discharge has been determined to satisfy the provisions for creekside dewatering, therefore the discharge limitations in Attachment B.3.c. of Order No. R4-2003-0111 are not applicable to your discharge, except for boron and nitrogen.

The Monitoring and Reporting Program requires you to implement the monitoring program on the effective date of coverage under this permit. All monitoring reports should be sent to the Regional Board, ATTN: Information Technology Unit. When submitting monitoring or technical reports to the Regional Board per these requirements, please include a reference to "Compliance File No.

CI-8985 and NPDES No. CAG994004", which will assure that the reports are directed to the appropriate file and staff. Also, please do not combine other reports with your monitoring reports. Submit each type of report as a separate document.

In order to avoid future annual fees, please submit written notification when the project has been completed and the permit is no longer needed.

We are sending Board Order No. R4-2003-0111 only to the applicant. For those on the mailing list, please refer to the Board Order sent to you previously or download a copy of the Order from our website at: http://www.waterboards.ca.gov/losangeles/html/permits/general_permits.html.

If you have any questions, please contact Namiraj Jain at (213) 620-6003.

Sincerely,
