**TERMINATION OF COVERAGE UNDER GENERAL WASTE DISCHARGE
REQUIREMENTS – FORMER POWER GAS FACILITY, 11962 WASHINGTON BOULEVARD,
CULVER CITY, CALIFORNIA (ORDER NO. R4-2005-0030, CI-8993, SERIES NO. 032) (R-
10969)**

Dear Mr. Hancz:

In our letter dated December 1, 2005, we informed you that the subject discharge is regulated under Order No. R4-2005-0030, (Series No. 032), which specifies your Waste Discharge Requirements (WDR).

In a letter dated August 27, 2007, you notified the Regional Board that you ceased in-situ chemical oxidation injection for this site and that you requested termination of the WDR.

The monitoring results were provided to this Regional Board in quarterly monitoring reports. Since you have completed the in-situ remediation and no longer need the WDR, the coverage under Board Order No. R4-2005-0030, (Series No. 032), for the subject facility is hereby terminated with the exception of enforcement under the terms of the permit.

If you have any questions, please contact the Project Manager, Mr. Jay Huang, at (213) 576-6711 or the Chief of Groundwater Permitting Unit, Dr. Rebecca Chou, at (213) 620-6156.

Sincerely,

Tracy J. Egoscue
Executive Officer

Chief Deputy Ed
