RETURN RECEIPT REQUESTED
CLAIM NO. 7001 2510 0003 6055 6968

Dear Ms. Bruno:

COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT (NPDES) AND WASTE DISCHARGE REQUIREMENTS—PARK WATER COMPANY—WELL NO. 19C, 1743 E. 118th STREET, COMPTON, CALIFORNIA (NPDES NO. CAG994005, CI-9243)

We have completed our review of your application for a permit to discharge waste under the National Pollutant Discharge Elimination System (NPDES). Based on the information provided, the proposed discharge of groundwater meets the conditions to be regulated under Order No. R4-2003-0108, *General National Pollutant Discharge Elimination System and Waste Discharge Requirements for Discharges of Groundwater from Potable Water Supply Wells to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on August 7, 2003.

Enclosed are your Waste Discharge Requirements, which also serve as a NPDES permit, consisting of Order No. R4-2003-0108 and Monitoring and Reporting Program No. CI-9243. The discharge limitations in Part E.1 of Order No. R4-2003-0108 are applicable to your discharge. Discharge from the project drains to Compton Creek, thence to Los Angeles River - between Figueroa Street and Los Angeles River Estuary (Willow Street); therefore, the discharge limitations in Attachment B.7.d of Order No. R4-2003-0108 are applicable to your discharge. Prior to starting discharge, a representative sample of the effluent shall be obtained and analyzed to determine compliance with the discharge limitations.

The Monitoring and Reporting Program requires you to implement the monitoring program on the effective date of coverage under this permit. All monitoring reports should be sent to the Regional Board, ATTN: Information Technology Unit.

When submitting monitoring or technical reports to the Regional Board per these requirements, please include a reference to "Compliance File No. CI-9243 and NPDES No. CAG994005", which will assure that the reports are directed to the appropriate file and staff. Also, please do not combine other reports with your monitoring reports. Submit each type of report as a separate document. In order to avoid future annual fees, please submit written notification when the project has been completed and the permit is no longer needed.
