June 10, 2008

Mr. Jim Gallagher
Golden State Water Company
Foothill District
401 South San Dimas Canyon Road
San Dimas, CA 91773

Dear Mr. Gallagher:

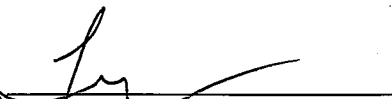

TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMIT—GOLDEN STATE WATER COMPANY, FARNA WELL NO. 1, 5155 NORTH FARNA AVENUE, ARCADIA, CALIFORNIA (NPDES CAG994005, CI—9292)

In our letter dated July 16, 2007, we informed you that the subject discharge is regulated under Order No. R4-2003-0108, *General NPDES and Waste Discharge Requirements for Groundwater Discharges from Potable Water Supply Wells to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, which also serves as your NPDES permit.

On May 8, 2008, you informed the Regional Board staff that the above-referenced project was completed in December 2007. On May 29, 2008, our staff inspected the facility, and verified that there is no discharge to the storm drain.

Since there is no discharge from the site to the storm drain, coverage under Board Order No. R4-2003-0108 for the subject facility is hereby terminated except for enforcement purposes. Please note that if future discharges of groundwater to surface water becomes necessary, you must file a Report of Waste Discharge with this office and obtain Waste Discharge Requirements (WDRs) prior to discharging any groundwater from the site to surface waters. If you have any questions, please contact Vilma Correa at (213) 576-6794.

Sincerely,

Tracy J. Egoscue
Executive Officer
