### TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMIT—TMB OIL, 76 UNOCAL STATION, 1340 IMPERIAL HIGHWAY, WILLOWBROOM, CALIFORNIA (CAG834001, CI—9374)

Dear Mr. Berri:

In our letter dated January 16, 2008, we informed you that the subject discharge is regulated under Order No. R4-2007-0021, *General NPDES and Waste Discharge Requirements for Treated Groundwater and Other Wastewaters from Investigation and/or Cleanup of Petroleum Fuel-Contaminated Sites to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, which also serves as your NPDES permit.

We have received and reviewed your June 19, 2009, letter requesting termination of your coverage under the General Permit because you have not discharged any groundwater from the above-referenced facility since the General Permit was issued. On July 23, 2009, our staff inspected the facility and verified that there is no discharge of groundwater to the storm drain.

Since there is no discharge from the site to the storm drain, coverage under Board Order No. R4-2007-0021 for the subject facility is hereby terminated except for enforcement purposes. Please note that if a future discharge of groundwater to surface water becomes necessary at the site, you must file a Report of Waste Discharge with this office and obtain appropriate waste discharge requirements.

If you have any questions, please contact Vilma Correa at (213) 576-6794.

Sincerely,

  
Tracy J. Egoscue  
Executive Officer  
for  
Chief Deputy E.O.
