Point Mugu, CA 93042

VIA CERTIFIED MAIL
RETURNED RECEIPT REQUESTED
No. 7008 0150 0003 7881 0053

Dear Ms. Thompson:

AMENDED WASTE DISCHARGE REQUIREMENTS – NAVAL FACILITIES ENGINEERING SERVICE CENTER, SEAWATER DESALINATION TEST FACILITY, PORT HUENEME, CA. (NPDES NO. CA0064564, CI NO. 9397)

On April 16, 2009, the Los Angeles Regional Water Quality Control Board (Regional Board) mailed tentative Waste Discharge Requirements (WDRs) which amended the current the National Pollutant Discharge Elimination System (NPDES) permit for the referenced facility. The tentative WDRs narrowly reopened the Naval Facilities Engineering Service Center (Seawater Desalination Test Facility) NPDES permit to incorporate the correct total recoverable metal effluent limits.

Pursuant to Division 7 of the California Water Code, this Regional Board at a public hearing held on June 4, 2009, reviewed the tentative Waste Discharge Requirements (WDRs), considered all factors in the case, and adopted Order No. R4-2009-0067 (copy attached) relative to this waste discharge. Order No. R4-2009-0067 serves as your permit under the NPDES program and expires on May 10, 2013. Section 13376 of the California Water Code requires that an application for a new permit must be filed at least 180 days before the expiration date.

You are required to implement the *Monitoring and Reporting Program* (MRP) on the effective date of Order No. R4-2009-0067. Your first monitoring report for the July 2009, reporting period is due by November 1, 2009. All monitoring reports should be sent to the Regional Board, Attn: Information Technology Unit.

When submitting monitoring, technical reports, or any correspondence regarding the discharge under Order No. R4-2009-0067 to the Regional Board, please include a reference to *Compliance File No. CI 9397 and NPDES No. CA0064564*, which will assure that the reports are directed to the appropriate file and staff. Please do not combine your discharge monitoring reports with other reports. Please submit each type of report as a separate document.

California Environmental Protection Agency

Our mission is to preserve and enhance the quality of California's water resources for the benefit of present and future generations.

Ms. Alicia Thompson
Naval Facilities Engineering Service Center
Seawater Desalination Test Facility

June 16, 2009

We are sending the final copy of the permit only to the Discharger. For those on the mailing list who would like access to a copy of the final permit, please go to the Regional Board's website <http://www.waterboards.ca.gov/losangeles/>.

If you have any other questions, please call Mazhar Ali at (213) 576-6652.

Sincerely,

Cassandra D. Owens, Chief
Industrial Permitting Unit
