San Pedro, CA 90731

### WASTE DISCHARGE REQUIREMENTS BERTHS 145-147 WHARF IMPROVEMENT PROJECT (FILE NO. 08-081)

Dear Mr. Gioiello:

Reference is made to our letter of August 11, 2008, which transmitted copies of tentative waste discharge requirements (WDRs) and a receiving water monitoring program for dredging and disposal of dredged material from the Berths 145-147 Wharf Improvement Project in Los Angeles Harbor. We delayed transmitting the final WDRs to you while we considered your request to amend the proposed location for a small portion of the dredged material. This issue is addressed in an accompanying response letter.

In accordance with the California Water Code, this Board, at a public meeting held on September 11, 2008, reviewed the tentative requirements, considered all factors in the case and adopted Order No. R4-2008-0061 relative to this waste discharge (copy enclosed). The Standard Provisions, which were sent to you with the tentative requirements, were adopted without change and are part of this order.

All monitoring reports should be sent to the Regional Board, Attention: Information Technology Unit. Reference all technical monitoring reports required by this Order to our Compliance File No. 9450. We would appreciate it if you would not combine other reports, such as progress or technical reports, with your monitoring reports, but would submit each type of report as a separate document.

Should you have any questions, please telephone me at (213) 576-6718.

J. MICHAEL LYONS  
Environmental Specialist IV
