WASTE DISCHARGE REQUIREMENTS FORMER LONG BEACH NAVAL COMPLEX INSTALLATION RESTORATION SITE 7 DREDGING PROJECT (FILE NO. 08-133)

Dear Mr. Cameron:

Reference is made to our letter of October 9, 2008, which transmitted copies of tentative waste discharge requirements (WDRs) and a receiving water monitoring program for dredging and disposal of dredged/excavated material from the Former Long Beach Naval Complex Installation Restoration Site 7 Dredging Project within the Port of Long Beach, Los Angeles County.

In accordance with the California Water Code, this Board, at a public meeting held on December 11, 2008, reviewed the tentative requirements, considered all factors in the case and adopted Order No. R4-2008-0203 relative to this waste discharge (copy enclosed). The Standard Provisions, which were sent to you with the tentative requirements, were adopted without change and are part of this order.

All monitoring reports should be sent to the Regional Board, Attention: Information Technology Unit. Reference all technical monitoring reports required by this Order to our Compliance File No. 9479. We would appreciate it if you would not combine other reports, such as progress or technical reports, with your monitoring reports, but would submit each type of report as a separate document.

Should you have any questions, please telephone me at (213) 576-6718.

J. MICHAEL LYONS
Environmental Specialist IV
