1800 Century Park East, 13th Floor
Los Angeles, California 90067

TERMINATION OF GENERAL WASTE DISCHARGE REQUIREMENTS – FORMER BECHLER TRUST PROPERTY, 1308 EAST ALONDRA BOULEVARD, COMPTON, CALIFORNIA (ORDER NO. R4-2007-0019, SERIES NO. 150, CI-9660, GLOBAL ID. WDR 100001849)

Dear Mr. Novak,

On January 26, 2011, this Regional Water Quality Control Board (Regional Board) informed you that the subject discharge is regulated under Regional Board Order No. R4-2007-0019 which specifies your Waste Discharge Requirements (WDR).

In the letter dated March 4, 2013, you notified the Regional Board that you ceased injection of 3-D Microemulsion (3DME) and hydrogen release compound (HRC) primer at the subject site and that you requested termination of the WDR.

Based on the monitoring results, remediation of volatile organic compounds contamination in groundwater was successful and other groundwater parameters have been stable from pre-injection through post-injection groundwater sampling events. Since Bechler Family Trust has no plan to continue injection of 3DME and HRC primer for site remediation, the coverage for the subject facility, under Regional Board Order No. R4-2007-0019, is hereby terminated with the exception of enforcement under the terms of the permit.

If you have any questions, please contact the Project Manager, Dr. Ann Chang at (213) 620-6122 (achang@waterboards.ca.gov), or the Chief of Groundwater Permitting Unit, Dr. Eric Wu at (213) 576-6683 (ewu@waterboards.ca.gov).

Sincerely,

Samuel Unger, P.E.
Executive Officer
